Sofia's Memorize Plan

10 minutes a day · one chunk a day · solo + trio

Learning a dance is not just running it over and over. You learn it in **chunks**, and then you **test yourself** on each chunk. Ten minutes a day is plenty. Here is the whole plan.

Every day · the five steps

Pick today's chunk (page 2). Tick each step when it's done. Solo and trio take turns, or do the one with the next unknown chunk.

- [ ] **1** 🎭 **Say the story** — 30 s

  Say the dance's story out loud. Then say which chunk is today's.

- [ ] **2** 🐢 **Mark it slow** — 3 min

  Play today's chunk at half speed, twice. Arms and eyes only. Say each move out loud as it comes. Or with Hannah's video: watch one 8-count, pause, do it. Then the next 8-count.

- [ ] **3** 🔢 **Count it** — 3 min

  From the top through today's chunk, full speed, twice. Count the 8s out loud: spoken counts, then the click, then nothing.

- [ ] **4** 🙈 **Test me** — 2 min

  Cue sheet in Test me. Say the next move BEFORE you tap it. Missed one? That's tomorrow's chunk again. With the video: pause anywhere, she says and shows what comes next. A chunk is learned when she never has to guess.

- [ ] **5** 🧠 **Picture it** — 1 min

  Eyes closed, no music. Dance the whole chunk in your head, start to finish.

Once a week: 🎬 Full run

Once with **Lines on**, once with **Lines off**.

Clean with no help? Ask a grown-up for the **No cues** badge.

In the app

The 🧠 **Memorize** card on each dance in **Dances** has the same five steps, with buttons that open the player, the counts and Test me.

The rules

- **One chunk a day.** Not two. Not the whole dance.
- A chunk is **KNOWN** when Test me is perfect **two days in a row**. Then move to the next one.
- **Trio first**, then the solo's **Tricks half**, then the rest.

Ms. Brittany's homework

1. Watch knee alignment: knees over the toes in pliés, lunges, landings and floor entries.
2. Timing and memorizing every step: no guessing what comes next.
3. Hannah's two videos are the map: go over them step by step until the order is no longer a question. Tricks come after the whole dance is from memory.

The chunks

Every chunk of both dances, and what's inside each one

A chunk is a named piece of the dance. Each one is a loop in the player. Tick **Known** when Test me is perfect two days in a row.
